UN-BOXX[®] max

UN-BOXX[®]

UN-BOXX[®]

for collecting solid hazardous materials

- Container for storing solid hazardous materials from the following Authorised Packaging Groups: I (X), II (Y), III (Z)
- UN approval no. 1H2W/X.../S.../.../TGM-....
- Approved for transport in accordance with the International Carriage of Dangerous Goods by Road (ADR)

Corporate Identity Options

- Thermal transfer printing
- Hot foiling, e.g. city name, coat of arms, logo, injection moulded texts
- Screen printing

Colours

Bespoke special colours available on request
Solid colour walls and lid, with hot foil and silk screen printing options

A range of UN-BOXX applications e.g.,

- for construction material (paint residues, unwanted materials etc.)
- for collecting and transporting cleaning rags and wipes
- for flammable materials and those harmful to the environment
- for binders for oil and chemical spills

NEW Antistatic

Antistatic version UN-BOXX+ (120 l) available:

- Permanently antistatic
- Surface resistance 10 to the power of 9
- Risk of sudden discharge is significantly minimised
- Particularly suitable for use in buildings

Patented Lid

Patented lid design with two locking clasps and lid seal, allows quick and easy opening and closing by the operative. The container's large aperture allows filling without spillages.

Simple locking system

Simple dual clasp locking system for easy manual opening and closing

Chip nest

Integrated chip nest for transponder chips under the comb bar, the container offers excellent possibilities of identification and registration of bin data

Easy to handle

Ergonomic, asymmetric handle with a 30mm diameter for optimum handling with gloves

Heavy Duty Wheels

In contrast to standard drums, UN-BOXX® is extra mobile thanks to its vulcanised rubber wheels and heavy duty hubs, with option for the wider BigFootWheel.

Quick-Release Wheels

Empty UN-BOXX® containers can be nested inside each other (without wheels), as wheels are fitted with a quick release mechanism. This saves a lot of space for storage and transport.

In addition, all current regulations for the collection of Hazardous Waste Materials must be observed by the operator and user.

A range of UN-BOXX applications e.g.:

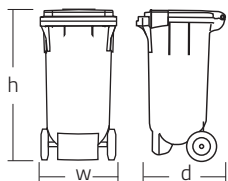

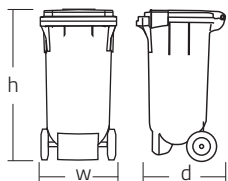

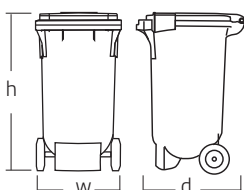

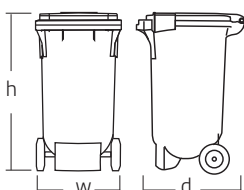

- for construction material (paint residues, unwanted materials etc.)
- for collecting and transporting cleaning rags and wipes
- for flammable materials and those harmful to the environment
- for binders for oil and chemical spills

Quality:

Manufactured under Quality Management System ISO 9001:2015 and the stringent automotive standard IATF 16949:2016. Corresponds with standard EN 840. Regular quality monitoring is undertaken by our in-house laboratory and independent EU Test Institutes.

NEW UN-BOXX [®]		Volume in litres (Nominal)	Height(h) Width(w) Depth(d) mm	Wheels Ø mm	Weight kg (approx.)
		120 litres	960/ 498/ 554	200	11,5
UN-BOXX [®] max		Volume in litres (Nominal)	Height(h) Width(w) Depth(d) mm	Wheels Ø mm	Weight kg (approx.)
		200 litres	1045/ 580/ 674	200	15
